Labor Day

JOE'S CORNER...

"Even something good can become bad if it is excessive." There was no playbook for a pandemic in 2020 that would guide us with health or economic decisions. Over the past two years the government monetarily assisted all Americans with what they felt could help get us through COVID-19. Many of us were working and receiving extra money (stimulus) which was good. Today, with rising prices and lack of extra money; we are all realizing that maybe the stimulus was excessive and we have created bad spending habits. THE LOCAL is more than a credit union to provide savings and loan products. We have more than a hundred years of experience creating budgets and answering financial questions. As we approach more uncertainty in the future, please know that you have a financial partner to help you with anything our economy throws your way.

Here is a Road Construction Update...

"It's a mess."

Please know that there are many ways to access THE LOCAL. Just call us! We can explain the traffic conditions and assist with a friendly voice over the phone. It's almost over!
