

Dear Valued Member,

The Local Credit Union is taking extra precautions and adding a security layer to our online and mobile banking products. This change will take place on **Tuesday, October 17th**. To avoid interruption in service it is important for our mobile and home banking users to check the operating system and browser versions on their computers, Android and iOS (iPhone's and iPads) devices.

Once the enhanced security layer is added, all mobile and home banking users must have the following minimum Internet Browsers and operating system versions:

Internet Browsers:

- Google Chrome version 22+
- Mozilla Firefox version 27+
- Safari version 7+
- Internet Explorer Version 10+
- Opera 12.18+

Operating Systems:

- Windows 7+ (*Vista and XP – Will NOT work*)
- Android Operating System version 5.0+
- iOS version 9+ (*iPhone 5 and newer*)
- OS X 10.9+ (*iPad and Mac's*)

Please make sure to install an updated operating system to your device if necessary by **Tuesday, October 17th**. If you have any questions, concerns, or trouble, please contact us at (586)264-1212, option 4 and we will be happy to assist you.
